

**Embark on a journey viewing my fabric wall hangings, artwork, handcrafts and beaded neckwear. My jewelry and quilt designs reflect the heart, soul and psyche of my relationship with the enchanted land in northern New Mexico. Many times the materials guide me to their place in the design. My desire is to portray a sense of the beautiful expansive mesas, lakes, rivers and valleys and to take liberty with the colors, to reform - enhance this natural world into the wall hangings. My purpose is to lift the spirit, bring a smile, and enrich your experience as you view my art.**

**I want to give back in my art that which has been given to me through spirit, family, friends and life experiences. This land's sacred light helps me create original, unique and artistic pieces imbued with a magical feeling of spirit. These pieces can be worn or hung in your home and therefore actively enjoyed for years to come.**

## Enjoy!
